

## Front End Developer

Would you like to be designing applications that are that little bit different from what others are doing?

We need a Front End Developer to join our award winning team. As the successful candidate you need to be creative, with great user interface design and development skills.

Reporting to the Operations Director, you will have freedom to work directly with clients on varied online learning projects such as learning portals, learning assessment tools and learning management systems.

You will work in a close knit team of web application developers, digital, graphic and instructional designers. We expect you to keep an eye on what's happening in the industry so that you can actively contribute to our design and development approach so we continue to lead the way in learning design and technology for our clients around the world.

### Essential criteria:

3<sup>rd</sup> level degree web design or computing qualification (or similar).

Minimum 2 years' experience as a Web or UX Designer in a commercial working environment.

Proficient in:

- Photoshop/Illustrator.
- JavaScript – jQuery- AngularJS/ or similar.
- CSS3.
- HTML5.
- Bootstrap.

Experience in:

- Working with a team to scope user interface flows and designing high fidelity mock-ups/prototypes for a client.
- Designing and building creative and responsive web applications with graceful degradation.
- Building an interface that works across multiple browsers.

- Able to work independently as well as within a close knit team to ensure we delight our clients and project managers who make sure we keep things on track delivering on time and within budget.

**Desirable but not essential criteria:**

- Experience working in ASP.Net MVC projects.
- Experience using Visual Studio.
- A working knowledge of a Content Management System.
- Experience in using version control tools (such as GIT or SVN).

**Location:** Belfast

**Salary:** Negotiable depending upon experience + benefits

**Closing date:**

To apply for this role, please send a cover letter outlining the skills and approach you think you could bring to the team with a detailed curriculum vitae to [info@aurionlearning.com](mailto:info@aurionlearning.com)
