

ASP.NET Developer

New clients, projects and support commitments require an additional ASP.NET Developer to join our software development team.

We are looking for a talented, motivated, and enthusiastic individual who would like to work in a dynamic and creative environment.

Responsibilities:

- Develop, test, and manage various web-based applications.
- Collaborate with existing developers/suppliers to ensure integration of all project requirements, including programming, interface, and design elements.
- Maintain / update existing client projects such as learning portals, content management systems, and responsive web applications.
- Contribute to strategic technological / product development.

Essential:

- 3rd Level computer science / IT-related qualification.
- A minimum of 5 years' experience developing web applications in a commercial environment using the following technology:
 - NET MVC 5 or ASP.NET Core MVC 1+
 - C# 5.0 or greater
 - Visual Studio 2012 or greater
 - SQL 2012 or greater
 - JavaScript Libraries/Frameworks (e.g. jQuery, Vue.js)

Desirable:

- Unit testing
- CSS3 and HTML5
- IIS 7
- Windows Azure Cloud Platform
- Umbraco Content Management System

Salary: £35,000 + per annum depending upon experience.

We offer continuous professional development opportunities and a range of other benefits including a contributory pension scheme and health plan.

By joining our highly skilled team, you will get the opportunity to think creatively and work on a wide range of interesting and challenging projects in the eLearning and digital media field. As well as a competitive salary and a generous benefits scheme, we offer a great working environment in a friendly and supportive team.

To apply for this role, please forward summary outlining relevant skills and experience against the essential and desirable criteria, and a detailed curriculum vitae to hello@aurionlearning.com
