

## **Graduate Digital Designer**

We are offering a 2021 graduate student from a design background an opportunity to join our team.

The successful candidate will work with the team lead on varied projects including learning portals, eLearning programmes, application front end user interfaces, product simulations and game-based learning applications. You will also work with a broader team of instructional designers, design professionals and web application developers.

You will design and implement learning assets for online learning programmes which can include the postproduction of video materials captured by our Audio-Visual team and produce accompanying printed advertising materials.

### **Requirements:**

- Proficient in the Adobe Creative Suite (Dreamweaver, Photoshop, Illustrator and After Effects).
- Ability to design responsive web applications with graceful degradation.
- Knowledge of UI design patterns and best practices.
- Designing high fidelity mock-ups/prototypes from wireframes.
- Ability to design creative user interfaces that adhere to best practice user interface design principles.
- Knowledge of HTML4/5, CSS2/3.
- Ability to build responsive web applications with graceful degradation.
- Practical experience in addressing cross browser issues and accessibility.

### **Location:** Belfast

As well as a competitive salary, we offer continuous professional development opportunities and a range of other benefits including a contributory pension scheme and healthcare plan.

By joining our highly skilled team, you will get the opportunity to think creatively and work on a wide range of interesting and challenging projects in the eLearning and digital media field.

To apply for this role, please send your CV and a brief introduction to [info@aurionlearning.com](mailto:info@aurionlearning.com).
